## Summer Funwork

I t's time to take down those books from your cupboard and read,

I t's time to play all day and not think about tests and worksheets.

I t's time to stay up late.

For fun and frolic you just can't wait!

Get ready with your summer gear,

Yippee!! Summer holidays are here!

### Dear parents and children,

Summertime can be a great time for young children to learn with parents. So many wonderful things happen during summer vacation, like trips to the beach and park, picnics, walks with mom and outings to museums. Summer family activities can be used to further your child's learning as well as help you to bond with your child.

Try some of the following ideas, and make up some of your own. Watch your children bloom into bright and confident little angels over the summer!

1. Cook dinner together. Get a kids' cookbook and have fun cooking together. Using words and pictures let your child help read instructions.
2. Plant a flower together. Talk about what plant need to grow. (Sun, water, etc.)
3. Let your child write a letter to someone, then let your child purchase the stamp and mail the letter at the post office.
4. Grocery day? Make a list with your child of household items needed and let your child help read the list and locate items in the store.
5. Play outdoor games. Teach your child to play hopscotch or marbles.
6. Go for a walk in the garden, or the nearby lake. Take pictures and make a book at home.
7. Housecleaning day? Let your child help! She can dust, clean windows and more. Start a chore chart.
8. Go to the library. Be sure to bring home books. Keep it up all summer!
9. Read books with your child and watch CDs of their favourite fairy tale together.

But with all these don't let them forget about the homework. We have designed the summer funwork keeping in mind that it should be fun. We also want the parent's inspiration and encouragement for the activities planned for the children during this summer.

**Have a great holiday!**

**Best wishes,**

**The Asian School**

### **Mathematics**

1. Visit to your nearby dairy. Find out the price of different milk products. Stick the picture of milk products along with their price (in kg). Now make an expenditure list for your monthly expenses on milk product (separately).

### **Science**

1. To cut paper/clothes to make clothes of different states (any five states) and paste them in a scrap file. (Roll No.1-20)
2. Collect leaves of various plants (at least 20) dry it properly and make a herbarium file or paste it in a scrap file. (Roll No. 21-40)

### **Social Science**

Note: Do your homework in S.St scrapbook.

1. Make a scrap album based on the topic "Our Rich Heritage".
2. Choose a state that you have never visited. Imagine that you are going to live there for two years. What are the things you should know about the state and its people? Add your own points to the following list:
  - a) The language
  - b) The climate
  - c) .....
  - d) .....
3. Solve HOTS questions given at the back of Lesson-9 and Lesson-10.

### **Computer**

Using Paint master make scenery, take a print out of it and stick it in your notebook.

## THE ASIAN SCHOOL

### TERM 2 (JULY-SEPT) SYLLABUS

#### CLASS 4

#### **ENGLISH**

##### **Literature**

L-5. Dear Daughter
