

THE ASIAN SCHOOL

ANNUAL EXHIBITION - 2019

The 20th Founder's Day Celebrations started at 11:00 am on 23rd October 2019 with the subject exhibitions put up by the various departments of The Asian School. It provides platform to showcase students' practical knowledge as well as their unique learning experience. The exhibitions are based on the common theme India Today followed by sub topics for various subjects. The Chief Guest of the occasion was Mr. Satish Sharma owner of The Garhwal Post, a highly honored and knowledgeable person of Uttarakhand state. The Junior showcased latest and informative exhibits in the subjects English, Hindi, Science, Social Studies and Art & Craft. English & Hindi languages showcased the importance of languages globally. The highlight of the show was a musical rap with a message about cleaner and greener Dehradun. EVS exhibition threw a flood of light on future missions of ISRO. The Art & Craft exhibits were the reflection of the creativity and talent of Junior wing of the school. The Drawing and creativity were depicted through Indian Folk Art. It showed that India has a hope of new creations from these Junior scientists, leaders and creators of tomorrow.

The exhibits put up by seniors were informative and an eye catching. English department had thrown a flood of light on the progress of literature in Independent India. The exhibits made by the students were crowd puller with interesting working models. Students and parents took keen interest in English exhibition, played a game and went out with literary knowledge of English post Independence in India. In Chemistry air pollutant absorber model was the talk of the day. To motivate and assess the abstract ability of students in Mathematics, many models were displayed. The models presented conceptual explanations to different perceptions of Mathematics used in daily life. The Math exhibition was able to generate tremendous interest among the visitors. The children had shown the properties of circle and uses of abacus in day today life. The Commerce students had shown their skills to manage waste through treatment plant leading to Eco friendly environment. Social Science exhibition had tried to better the GDP of the country through agricultural growth exploiting drip irrigation and rain water harvesting.

In Computer Artificial Intelligence device, Eco friendly smart city and presentation on Cyber Security were attractive models enjoyed by one and all. Biology exhibition enthralled the visitors and students both with working and non working models on various topics. The attraction of the day was Robotic Car for watering plants at home. In Physics model of seat belt (automatic moving) was liked by the visitors. Physical education showcased the growing impact of it in schools specially in present scenario. Art and Craft exhibition proved to be major attraction among visitors, beautiful paintings and handcraft items promoted the cottage industry. Design Lab exhibition showcased paperwork and woodwork items made by the children. Deco Page design items was a major attraction for the visitors and children both.

The Chief Guest spoke very high of The Asian School stressing that the school is progressing by leaps and bounds under the able guidance of Management, Principal and Vice Principal. He stated that the school would carve a niche in the education field in the years to come. The joy of students in highlighting their models and exhibits were whole heartedly appreciated by all the parents.
