

***Dear Parents and Children  
Greetings from The Asian School***

Vacation is the time for the children to explore their myriad interest and indulge in various activities which would lead to their all round development. It is not only a time for fun and frolic, but also a time to engage yourselves into some constructive activities to bring out the best in you. We, at The Asian School, have planned some activities and projects for you to develop a hands-on approach towards learning. The activities and assignments have been designed in a way to promote learning in all subjects and to develop “know-how” of certain aspects of the world around them while promoting and enhancing creativity among the students. These integrated exercises shall surely be a fun filled experience for all the children.

**A few tips for the students**

- Spend quality time with your parents. Try to learn from their experiences and anecdotes.
- Adopt a hobby.
- Spend time reading age appropriate literature like story books, novels and magazines. Try to find out some new words and look up their meaning in the dictionary to enhance your vocabulary.
- Avoid using mobile phones, watching television or playing video games the entire day. Spend time in the garden, observe nature, learn cooking or join a hobby class like painting, origami, karate etc.
- Adopt a fitness routine. This could include anything like playing outdoor games, yoga, morning exercises or even regular walks with your parents/grandparents.
- Help out at home. This will also earn brownie points with your parents and help you realize the importance of organization and cleanliness.

**A few tips for parents**

- Parents are requested to encourage their ward to do the homework independently. They can support the child if he/she needs help.
- Students should adhere to the instructions related to each assignment.
- Creativity and originality of the work will be appreciated.
- The child has to complete all the pending class work and homework.
- **All work on the internet will be done under parental guidance**
- Holiday homework would be graded. The homework should be completed by 10<sup>th</sup> July 2023. The students should submit their homework to the HRTs latest by 11<sup>th</sup> July 2023.

We hope that this summer break would be an engaging, useful and a fun filled one for our children.

***Regards  
The Asian School***

### Instructions for Holiday Homework

1. **Holiday homework for English, Hindi, Maths, Science and Social Science is an INTEGRATED ASSIGNMENT. The topic/theme for the assignment is “WILDLIFE CONSERVATION”. The Holiday Homework for these five subjects should be done in a SINGLE SCRAPBOOK.**
2. **Use your creativity to decorate your scrapbook based on the theme.**
3. **Holiday Homework for remaining subjects shall be done as per the instructions given along with each subject.**

### A. ENGLISH

1. Write a letter requesting your Principal to organise a school trip to Rajaji National Park.

You must: introduce yourself, state the need for the trip and express how it would be beneficial for students.

(Refer to the Grammar Book - Compacta Module 3)

2. Write a letter to your friend giving details of your recent trip to Rajaji National Park. Describe the living conditions of the animals and the importance of conservation of wildlife.

(Refer to the Grammar Book-Compacta Module 3)

### B. HINDI

राष्ट्रीय उद्यान (National Park) का अर्थ व महत्त्व बताते हुए, भारत के किन्हीं पाँच प्रमुख राष्ट्रीय उद्यानों (National Parks) का सचित्र वर्णन कीजिए।

### C. MATHS

A. Using the list of wildlife sanctuaries established in the various states of India from the decade 1951-60 to 2011-20 as per the data available on the website link: [http://www.wiienviis.nic.in/Database/wls\\_8230.aspx](http://www.wiienviis.nic.in/Database/wls_8230.aspx)

Draw a line graph by organizing the data in the following table:

Decade	1951-60	1961-70	1971-80	1981-90	1991-2000	2001-10	2011-20
Number of wildlife sanctuaries established in India							

Note: Use your own creativity to make the graph attractive, informative and easy to interpret.

Based on the graph plotted, prepare at least five questions (with answers) to get the useful information about the set up of wildlife sanctuaries in India.

B. On the daily basis, solve at least five mathematical problems (from the chapters taught till now) from Learning Composite Mathematics in your Practice Register ( Maths-3).
